

PAPUA NEW GUINEA'S LEADING FLEET-TRACKING SOLUTION

# Secure tomorrow's success with fleet digitalisation

GPS360 puts fleet owners in control — cars, trucks, machinery and beyond, connected across the country. World-class telematics, localised for PNG, with the hardware, apps and people to back it up.

 **Now tracking 700+ vehicles across Papua New Guinea**

## ONE CONNECTED ECOSYSTEM

### The GPS360 ecosystem

Hardware, platform, apps and support working together as a single fleet-digitalisation solution built for PNG.

#### ● Tracking Platform

Live tracking at [s2.track360.live](https://s2.track360.live) — maps, geofences and driver behaviour in real time.

#### ● GPS Hardware

Devices from the world's Top 10 GPS manufacturers — 700+ systems running across PNG.

#### ● Mobile Apps

Track on the go with iOS & Android apps approved by Google Play and the App Store.

#### ● Customer Portal

Manage your fleet, work orders, invoices and payments in one secure place.

#### ● Invoices & Billing

View invoices, pay online, and download statements and receipts from your account.

#### ● Analytics Dashboard

Vehicle diagnostics, fuel monitoring and reporting that turn fleet data into decisions.

## SOLUTIONS

# One platform for PNG's diverse fleets

Whatever you run — trucks, buses, mining gear, hire cars or field teams — GPS360 has a fit-for-purpose solution.

### Real-time Tracking

Track vehicles, staff and assets on the map; monitor speed, fuel and temperature — down to one second.

### Advanced Reports

Flexible templates in-browser or exported to PDF, XLS and CSV — scheduled straight to your inbox.

### Geo-fencing

Control vehicle movement with geofences — speed-limit violations, sensor variations and access control.

### Fuel Management

Detect fuel misuse and monitor the full distribution cycle, from filling stations to vehicles and machinery.

### Video Telematics

Accurate, unbiased live streams and recordings from connected vehicles for precise incident analysis.

### Anti-theft & Shutdown

Stop thieves with remote vehicle shutdown and restore, plus emergency-response alerts from drivers.

## Meet the GPS360 range

Three packages covering every fleet — transparent per-vehicle pricing, discounts on 12 & 24-month contracts.

#### MOST POPULAR
